NOTABLE PROJECTS

2024

RPG game

- Description: Developed an immersive role-playing game that features rich storytelling, character development, and strategic gameplay. The game was designed for both single-player and multiplayer modes, appealing to a wide audience.
- Outcome: Successfully launched with positive reviews from players and critics, achieving over 10,000 downloads in the first month.

2023

Run Out of The MAZE

- Description: Created an engaging puzzle-adventure game where players navigate through a complex maze. The game emphasizes critical thinking and problem-solving skills.
- Outcome: Garnered a loyal player base, with over 12,000 players completing the maze within the first three months of release.

2022

Push into Train

- Description: Developed a fast-paced action game that simulates thrilling train chases and strategic maneuvering. Players must make quick decisions to avoid obstacles and outsmart opponents.
- Outcome: The game reached 9000 downloads and was featured in the top charts of Google Play Store.

LANGUAGE

1. Chinese - Ability to communicate and write effectively, my mother tongue
